KITCHENS

Redefining your space

Behaving responsibly

At our core, we are dedicated to reducing our environmental impact and preserving our planet for future generations.

We have worked with the Carbon Trust to build a carbon calculator that generates cradle-to-gate carbon footprints for our kitchen products. The goal is to increase transparency for our customers, allowing them to get a view of the carbon footprints of the products they are purchasing.

The industry leading carbon calculator allows us to understand the carbon footprint of all the components used to build your kitchen. It is also used to drive sustainable product development, in order that we continue our journey towards decarbonising our product offer.

Our commitment to decarbonisation drives our business model.

- Our efficient biomass boiler burns waste material to heat factories and warehouses.
- We send 0% to landfill. We actively recycle materials such as vinyl, plastic, paper, printer cartridges, and even heavy goods vehicle tyres, reducing waste and promoting a circular economy
- Solar panels supply 40% of power, with the remaining power from green electricity.
- All of our vehicles driven by the sales teams are electric/hybrid.
- To promote responsible sourcing, we encourage our suppliers to ensure our raw materials come from sustainable and responsibly managed sources.

Kitchen Styles

Prepare to be captivated by the art of kitchen design as you explore a curated collection of exceptional kitchens.

Avalon kitchens are meticulously crafted to redefine the way you experience culinary excellence. Delve into a palette of captivating colours, exquisite finishes, and cutting-edge kitchen fittings that blend aesthetics with practicality.

Shaker

Enhance the beauty of your home with real wood ash or replicated wood grain painted doors in a variety of heritage colours, providing a timeless and elegant touch to any home.

Handleless

Transform your kitchen with a modern, handleless design. Choose from gloss, matt, wood grain or concrete finishes.

J Pull

The slim profile and integrated finger pull feature on the doors offers a smooth, uninterrupted finish. Customise doors with matt painted or gloss colours.

Slab

The contemporary slab kitchen features a streamlined look, with a flat door and a soft radius edge. Available in a range of colours, from classic white and neutrals to heritage hues.

Our Collections

At times, it can be difficult to identify the best kitchen option from the seemingly endless array of possibilities. We have plenty of resources available to make the process easier, including categories below and a directory in the back of the book. Whether you're looking for a heritage colour, something natural, a flat door, or a shaker style, we can help you find the right kitchen.

Storage solutions

A place for everything

Tired of cluttered kitchen counters and cabinets? Do you find yourself wishing for a way to make your kitchen more efficient and organised? Look no further than our kitchen storage solutions! With our products, you'll be able to find a place for everything and make your kitchen more functional. Select today to find the perfect storage solutions for your kitchen!

Bowland shown in Kashmir and Tuscan

Maximise kitchen space

Our kitchen pantry is a great storage space for smaller items like dry goods and spices, while the larder is better suited for larger items such as canned goods and bulk items too big to fit in the pantry.

Planning your Kitchen

Heart of the home

Choosing the right kitchen

Choosing the right kitchen for your home can be a challenging task. With so many options available, it can be difficult to decide which kitchen is right for you. Here are some tips to help you pick the kitchen of your dreams.

1 → Determine your needs

Before you start shopping for a kitchen, think about how you will use the space. Consider how many people you need to accommodate and if you plan to entertain guests, as well as your cooking habits. This will help you narrow down your choices.

2 → Consider your budget

It's important to set a budget before you start shopping for a kitchen. This will help you determine what type of kitchen is within your price range. You should also consider the cost of installation and any additional accessories you may need.

3 → Choose a style

The style of your kitchen should reflect your personal taste and the overall design of your home. Do you prefer a modern, traditional, or eclectic look? The style of your kitchen will also determine the type of materials, finishes, and appliances you select.

4 → Consider storage

When planning your kitchen, prioritise your storage requirements and carefully consider accessibility. Ensure that you strategically position storage areas, such as pantries or larders, near where you'll be preparing food, optimising functionality, and convenience.

Remodel or rework?

If you are considering changing the shape of your kitchen, there are several factors to consider. On the one hand, staying with the current shape of your kitchen may be more cost-effective and less disruptive than a complete remodel. On the other hand, updating the shape and design of your kitchen can often improve its functionality, make it more aesthetically pleasing, and increase the value of your home.

1

Pros of rework

The biggest advantage of staying with the current shape of your kitchen is cost and disruption. Keeping the current shape means you don't have to pay for a complete remodel, which can be costly and time-consuming. Staying with the current shape may also be the right choice if you are happy with the existing layout and don't feel the need to make any major changes.

2

Pros of remodel

First, the current layout of your kitchen might be preventing you from optimising its space. This can mean that you're not able to maximise its potential or add new appliances or kitchen gadgets. Even if you're able to make do with what you have, an updated kitchen layout can not only make the room look more modern and inviting but could increase its functionality if you're constantly frustrated by the lack of space and storage.

Kitchen shapes

No matter what shape your kitchen is, there are always ways to optimize the space and make it work for you. Whether you're an avid chef or just love to gather with friends and family, there's a kitchen layout that will meet your needs and suit your style. Kitchens come in all shapes and sizes, and here are a few of the most common kitchen shapes:

U-shaped

U-shaped kitchens are ideal for larger spaces and provide ample counter and cabinet space. They also allow for easy flow between different work areas, such as the sink, stove, and refrigerator.

L-shaped

L-shaped kitchens are perfect for smaller spaces, as they can help maximize usable space. They also provide a more open layout and can be used for both cooking and dining.

Island

Peninsula kitchens are similar to island kitchens, but the extra counter space is attached to the main countertop, rather than being a separate unit. They can provide additional storage and workspace without taking up as much floor space as an island.

Galley

Galley kitchens are narrow and typically have counter space on either side of a central walkway. While they may not provide as much storage or counter space as other layouts, they can be incredibly efficient and are perfect for smaller apartments or homes.

Haddington kitchen shown in anthracite.

Creating great furniture

Kitchens of dreams

The Avalon Collection has everything you need to build the kitchen of your dreams.

With a wide selection of top-of-the-line materials and fixtures, plus a variety of colours and finishes, you can create a space that is uniquely yours. Whether you're looking for a modern look, or something more classic, Avalon has the perfect combination of style and functionality.

Our kitchens are made to the highest quality. Sourcing only the best materials and using the most advanced techniques to ensure that the finished product is built to last. We are dedicated to providing our customers with a kitchen that is both beautiful and functional. We understand that everyone has different tastes and budgets. That's why we offer a wide range of products, from laminate to painted cabinets.

Specialising in creating unique kitchens that are tailored to your individual tastes and needs. Our experienced craftsmen use a combination of traditional English techniques and modern technology to create classic styles with a contemporary edge.

Avalon Cabinets and drawers

Experience the difference that meticulous attention to detail and premium features can make in your kitchen. Choose our cabinets and drawers for exceptional quality, functionality, and stunning aesthetics. We understand that a well-designed kitchen considers every angle, and that includes the inside view. Our internal colour-matched cabinets guarantee that you'll experience a sense of satisfaction every time you open a drawer or cupboard. The cohesive look and meticulous attention to detail will leave you impressed with the overall design and functionality.

- **Certified Excellence:** Our cabinets hold the prestigious Fira Gold Certification.
- **Superior Construction:** Crafted with 18mm high-quality melamine faced chipboard (BS6222-3:1999) and a 130gsm overlay, our cabinets provide long-lasting performance.
- **Enhanced Aesthetics and Protection:** With 0.8mm ABS cabinet lipping, our cabinets offer both a sleek appearance and enhanced protection against wear and tear.
- **Strength and Stability:** Our cabinets feature cam construction with added dowels, providing exceptional strength and stability for long-term use.
- **Solid Backing:** Enjoy the sturdiness of 8mm full-length matching MDF backs for both base and wall cabinets, ensuring structural integrity.
- **Seamless Installation:** Concealed wall hanging brackets not only provide a secure installation but also enhance the overall aesthetic appeal of your kitchen.
- **Precision Hinges:** Our Blum 110° three-way adjustable hinges offer superior functionality, allowing for easy door adjustments and a perfect fit.
- **Quiet and Gentle Closure:** Opt for the Blum soft-close door option to experience smooth and silent door closure.
- **Effortless Drawer Operation:** Blum drawer systems with soft-close functionality ensures seamless and quiet drawer operation, maximizing convenience and functionality.
- **Coordinated Perfection:** Replaceable co-ordinated ends are available to perfectly match our uni-colour, wood grain, and gloss finishes, creating a cohesive and harmonious kitchen design.

Cabinet colours:-

Solid Oak timber drawers with beautifully crafted dovetail joints are available as an option on Bowland, Haddington, Hawkshaw and Pendle kitchens. Not only are they aesthetically pleasing to the eye but they ensure strength and durability for years to come!

Our Blum Antaro drawer packs come complete with soft-close systems. Choose from a range of colours for the carcasses in grey mist, Lancaster oak, oyster, white and Kashmir.

Avalon Evolution Cabinet & drawer options

Avalon Evolution is our newest range of cabinets. As with our standard range, Evolution retains all the same exceptional quality with the addition of extended wall storage for the busy kitchen. Available only in Lava with colour co-ordinating Blum Merivobox drawer systems and Blum soft close hinges in Onyx mean that your cabinet interiors will have a stunning high end look. All visible ends can be dressed with co-ordinating panels to finish the look.

Cabinet colours:-

Lava

- **Certified Excellence:** Our cabinets hold the prestigious Fira Gold Certification.
- **Superior Construction:** Crafted with 18mm high-quality melamine faced chipboard (BS6222-3:1999) and a 130gsm overlay, our cabinets provide long-lasting performance.
- **Hanging tough:** Upgraded, concealed, 3-way adjustable hanging brackets with anti-lift locking mechanism and Onyx cover cap
- **Enhanced Aesthetics and Protection:** With 0.8mm ABS cabinet lipping, our cabinets offer both a sleek appearance and enhanced protection against wear and tear.
- **Increases wall storage:** Double wall units come in two heights - 720mm & 902mm and a width of 330mm. Supplied with a central divider, creating the illusion of 2 single wall units whilst enhancing the overall appearance.
- **Strength and Stability:** Our cabinets feature cam construction with added dowels, providing exceptional strength and stability for long-term use. Concealed, 3-way adjustable hanging brackets with anti-lift locking mechanism and Onyx cover cap. 18mm shelves with concealed anti-tip shelf supports with matching 0.8mm impact-resistant ABS edging on all sides. Glazed cabinets can be upgraded to glass shelves.
- **Precision Hinges:** Our Blum 110° three-way adjustable hinges offer superior functionality, allowing for easy door adjustments and a perfect fit. In co-ordinating Onyx including boss and arm covers.
- **Quiet and Gentle Closure:** Opt for the Blum soft-close door option to experience smooth and silent door closure.
- **Solid Backing:** 8mm solid back panel with a 56mm void on the base unit for services.
- **Coordinated Perfection:** Colour co-ordinated Blum Merivo drawer box with full extension and soft closing action. Pan drawers have glass sides.

Our Avalon Evolution range of kitchens come equipped with Blum Merivo box drawer systems, ensuring top-notch functionality and stylish design. Tip-on option available which allows for push to open and slow motion close.

Blum products

*Elevate your kitchen experience
with innovative excellence*

When it comes to kitchen fittings, there is one name that stands above the rest: BLUM. Renowned for their unparalleled quality, innovation, and precision, BLUM is a global leader in the kitchen industry. With a rich history dating back to 1952 in Austria, BLUM has revolutionized the way we experience and interact with our kitchens.

BLUM's commitment to excellence is evident in every aspect of their product range. Meticulously engineered to perfection, their fittings are designed to enhance the functionality and convenience of your kitchen. From smooth and effortless drawer systems to sleek and reliable hinges, BLUM's innovative solutions are crafted to make your everyday kitchen tasks a breeze.

MERIVOBX drawer system

The innovative L-shape of the brand-new runner system ensures high stability and load bearing capacity. In addition to the synchronised feather-light glide, the high level of front stability opens up new possibilities in kitchen design. The characteristic look with clear lines and a unique design also gives the award winning (Red Dot design award) MERIVOBX a distinctive appearance.

TANDEMBOX Antaro Drawers

Our drawers are a mellow grey toned metal sided drawer with a 16 mm co-ordinating solid base. Low-friction cylindrical nylon rollers guarantee a feather-light glide and dynamic carrying capacities of 30kg, 50kg and 65kg. Thanks to soft-close BLUMOTION, drawers and pull-outs will always close softly.

AVENTOS HF Bi-fold lift system

AVENTOS HF is an award-winning lift system for bi-fold fronts both high and large. The system provides endless possibilities in planning and design with little installation effort. AVENTOS HF offers direct access, ease of use and freedom of movement.

Blum Lifetime Guarantee

Such is Blum's confidence with their manufacturing excellence, in the unlikely event of any defect occurring within a Blum fitting, they will replace it free of charge, regardless of its age.

The double door larder unit is the ultimate in storage and includes two deep pan drawers.
